# ✓ RATING VERIFICATION

Rating will be verified at Check In.  
 Tournament ratings recorded from Major Leisure Games Events will be taken into consideration in determining the Entry ratings for the 2015 Hawaii Classic.  
 There are limits on acceptable differentials between a Tournament Rating (the rating used by a player to enter the Hawaii Classic Events) and an Event Rating (the rating level the player is shooting in the Hawaii Classic Events). If a player's Event Rating exceeds their Tournament Rating, They will need to enter future Leisure Games Events and play at the newly acquired Card Rating. Said rerating does not impact the teams and the standings within the flight from which the stats were derived.  
 A player may be rerated by the Hawaii Classic Tournament Committee. Once a player is rerated, the new rating applies throughout the remaining Hawaii Classic Events (cannot go down). If a player is rerated twice, said player will be disqualified from further participation, will not receive prize money from the event in which the second rerate occurred and will not receive refunds for subsequent events. Said player's future eligibility in Major Leisure Games Events will be determined after the Hawaii Classic Events.
